GETTING ALARMED.

The Tribune is getting very much alarmed over the way politics are shap- politics. It is a clay-fisted mummy. ing in this Territory. It sees that it is lash. On Monday it came out with a most pitiful wail and among other things says in relation to the dividing up on national lines:

in the country. The Deseret News has been clared by dictation, or by counsel, call it what you please—of "he chief priests of the Mormon Church. "Ve all know that in the past had any couns." Agrable humber of Saints dared to do what good many are doing now, go off on political tangents of their own, they would have been called up, and unless they recented they would have been ex-communicated without debate. And when we reflect that the old dream of the Mormon chiefs from the first has been to secure Statchood for Etah; when we think of the first this been to secure Statchood for Etah; when we think of the first this years past to secure that object; when we think of the Brown family going to the Republican party, it seems to us that if the plan was on their part to make any needed concession for a year or two or three until they could secure Statchood, that they would be doing exactly what they are doing now. In the meantime there is no sign from the men who countrol this organization.

The question now 'i, what least in their intentions, but that all they have determined to do to for the present to change their methods. And if this is true, we give Republicans and Democrats alike notice that if they go on in the lines which a few are working on now, while it will be possible to get that the possible to get that they have that all they have changed the least in their intentions, but that all they have determined to do to for the present to change their methods. And if this is true, we give Republicans and Democrats alike notice that if they go on in the lines which a few are working on now, while it will be possible to get that they have changed the least in their intentions, but that all they have changed the least in their intentions, but that all they have changed the possible to destroy the Liberal party, while it will be possible to get and the possible to get and It has been through an arrangement.

jurors Mormon jurors, to think that some of the old spirit will not remain, and that the men in authority will not conduct this region as they are direct-

In his remarks on Saturday night Mr. Brown said: "This thing ought to be tried; that if it did not succeed that then we would again organize the old Liberal party." We beg to say to him, and to all who think as he does, that if this thing continues, if it shall be determined by so many Democrats and Republicans to drift off on to par ty lines, that the movement shall pre vall and the L beral party be destroyed. we say that never again will that Lib-eral party be able to gather up its scattered and discovered elements, except through a blocky revolution.
